

# HEALTH AND SAFETY PROTOCOLS

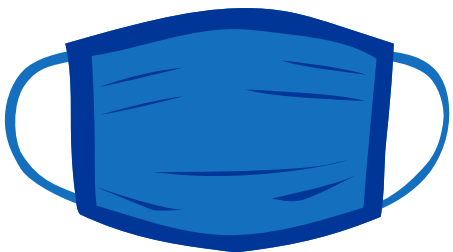

Stay at home if you are feeling ill or coughing, have a fever, or experiencing a recent loss of taste.

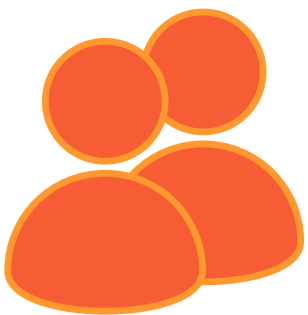

All guests and participants will have their temperature taken upon entering the DSAGC office. If over 38° C you will be asked to return home.

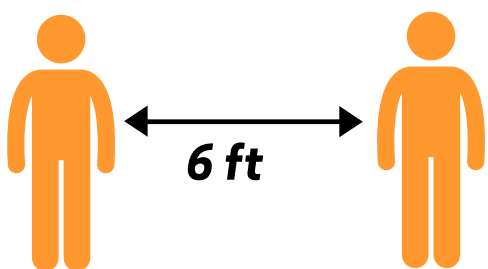

All guests and program participants are required to wash their hands upon entering and before leaving the office. There will also be hand sanitizer readily available.

Mask requirements will follow in accordance with the state standards.

Only one parent or caregiver can enter our office to drop off or attend a class with a participant. Please do not enter any earlier than five minutes before a class, event, or appointment.

Our program class sizes will be limited for the time being so we can properly honor the 6-foot social distancing guidelines.

All rooms being used for programs will be sanitized in-between classes or events.
